

# EMERGENCY BONER REVERSAL

If you are about to ejaculate into a vagina and potentially cause an abortion, simply stare at this photo until your boner has reversed.

**Benevolent  
Order of  
Nebraskans for  
Erection  
Reversal**

**Keep  
It  
Limp for  
Life  
!**

**KILL YOUR BONER. SAVE A LIFE.**

**PREVENTING**

*Irresponsible*

*Ejaculation*

# How can I prevent abortion ?

**Biff is an all-American man who cares very much about babies. He's been wondering: *As a man, how can I prevent abortion?***

Good news, Biff. *Men can prevent 100% of abortions!*

You read that right—every single unwanted pregnancy is caused by men.

See, Biff, babies are made when a penis ejaculates sperm into a vagina and the sperm travels past the cervix and fertilizes an egg. **And that microscopic formation will one day be a baby** that you can deprive of nutritious food, a clean environment, a well-funded education, health care, and a living wage. **But that's only if the vagina-owner doesn't kill it first**, for a selfish reason such as not wanting to die or not wanting to be reminded of you every day for the rest of her life.

## How it works:

### ***Don't ejaculate into a vagina!***

That's right: if you don't want to impregnate someone and leave it up to her whether she will carry the baby to term or get an abortion, just keep your penis out of there!

## Facts:

- Your penis can ejaculate in lots of places—but *you knew that already!*
- A woman does not need your penis in her vagina—or anywhere!—in order to be sexually gratified!
- A woman can have orgasms every day but never run the risk of pregnancy until you decide to irresponsibly orgasm!
- You can find pleasure with your lady friend in lots of ways that don't involve you launching sperm into her vagina!

## Places you can ejaculate without fertilizing an egg:

- Mouths\*
- Hands (your own or a friend's\*!)
- Butts\*
- Artificial vaginas
- Boobs\*
- Jell-O\*\*

*\*requires consent*

*\*\*may require consent, depending on who owns the Jell-O*

## Q: What about a real vagina?

No, Biff. That is literally the only place you must **not** ejaculate if you want to prevent abortions. **Again, do not ejaculate into a vagina if you are opposed to abortion.**

## Q: What if I already ejaculated into a vagina?

Sorry, now it's up to the person whose vagina you ejaculated into to decide whether to value her own life or priorities over gestating your seed. **Next time, control your boner if you want to prevent abortion.**
